

Bio Music One CDs are the culmination of 20 years of research and development. During the last 10 years, they have probably been the most thoroughly observed and scientifically tested wellness products on the market, with very beneficial results in 99% of cases for humans and their environment, no matter what listening mode was used (please see our website for more details). **A number of diverse tests have been conducted on** - water (Emoto's frozen crystals, sensitive crystallisation, the electrophysionic process, differential conductimetry, high performance liquid chromatography) - human blood (dark field microscopy) - different body functions with a range of medical equipment (cardiovascular system, central and peripheral nervous system, biorhythms and electrical brain activity, emotional management, general state) - the human body's and plants' informational fields (electrophysionic process) - **Observations** made in healing centres (Alzheimer's disease, Autism) - in companies - in Feng Shui, radiesthesia and geobiology (torsion fields detection) - **Thousands of testimonials** from individuals' experiences during conferences, workshops or at home.

Bio Music One CDs' scope of action is effective on many levels, which interact amongst themselves and are allocated over five sections in the table below. To choose the most suitable CD for you, please see the relevant section related to your own priorities.
